Strict OS

Cutting-edge AI, blockchain, and quantum computing operating system.

Unmatched experience for business, developers, and consumers.

- StrictOS is a cutting-edge operating system that is designed to meet the needs of the future. With its advanced artificial intelligence, blockchain, and quantum computing capabilities, StrictOS provides a unique and powerful experience that will be unmatched by any other operating system on the market. The OS features a decentralized ecosystem with a greed-proof or monopoly-proof mechanism, scalable and customizable power from third-party services, and interconnection with future human technology interfaces. The code is self-optimizing, self-updating, and self-improving with enhanced security features. The OS can communicate across various technologies such as 6G, low-frequency waves, satellite networks, and meshed public networks

OpenStrict

- StrictOS prioritizes privacy and security, offering futuristic privacy features and secure token storage options, as well as a compromise mechanism for instant key change and verification with future chipped IDs. The OS also includes a built-in wallet for secure payments and money transfers, and advanced virtualization technology with auto-scaling and memory protection. The virtual network connection is encrypted with multiple options for private/enterprise, local, and public networks.
- StrictOS will also incorporate advanced AI, AR, speech recognition, and IoT integration for a more personalized and intuitive user experience. With its advanced kernel and memory handling capabilities, the OS can run without reboots or interruptions, ensuring a highly stable and secure system. Additionally, the OS will incorporate quantum computing capabilities for ultra-fast processing and powerful data analysis.
- StrictOS is an ongoing project that is dedicated to providing the highest level of security, efficiency, and innovation. Whether you are a business user, a developer, or a consumer, StrictOS has something to offer you, making everything easier, more secure, and more powerful.
